4. The Examiner has accepted changes made to the specification.

### *Response to Arguments*

5. Applicant's arguments filed on 07 February 2005 have been fully considered and they are persuasive.

### *Allowable Subject Matter*

6. **Claims 1-5,7-17, and 19-20 are allowed.**
7. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for maintaining user security features. Each independent claim identifies the uniquely distinct features "**managing customer security features using a security item identifier within the updated security feature that corresponds to the customer**". The closer prior art Sehr (US Patent No. 6,609,659) discloses a passport system, including passport service providers and portable passport devices, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.
8. Therefore, **claims 1,9, and 13**, and the respective **dependent claims 2-5,7-8,10-12,14-17, and 19-20** are in condition for allowance.

### **Conclusion**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
